

Special Booking Offer Covid-19 Policy

(ver. 022822)

Settlers Creek appreciates the opportunity to host you, your family and guests.

Like all of us, we have no way to anticipate with any certainty how the current or future health crisis will continue to affect us all.

The degree, timing and sequence which impacts are felt, mandates and restrictions are imposed, continue to change over time. However...

We also know our lives must move forward and important life plans can and should still be considered so that as things begin to 'normalize' we are not all starting from scratch or have missed our window of opportunity.

With that in mind, Settlers Creek has implemented an open rescheduling policy.

What does that mean?

Well, it is our commitment that any event booked can, upon Client request, be rescheduled (one time only) for legitimate pandemic related reasons to any future available later date as late as the end of the following year's event season (November 1). For most that is more than 1 full year after the original date. The rescheduled event day will be the same day of the week as the original booking, unless otherwise agreed by both Client & Settlers Creek. We ask that such request be made no later than 180 day prior to the original event date. Refer to the posted contract terms and conditions for more detail.

We are firm believers that the... 'show must go on'...

So, we are putting our policy where our mouth is by taking much of the plan making risk out of the picture...

Now you can move forward in a way that allows dates to be set with rescheduling as an option....Now let's start planning!

Thank you again for your interest in Settlers Creek!
